Forward	II,III	ISOFIT+3-point safety belt	SEMI-UNIVERSAL
Forward	II,III	3-point safety belt	UNIVERSAL

Notice regarding Universal category (Group 0+ I II III)

1. This is a “Universal” child restraint. It is approved to Regulation No. 44, 04 series of amendments, for general use in vehicles and it will fit most, but not all, car seats.
2. A correct fit is likely if the vehicle manufacturer has declared in the vehicle handbook that the vehicle is capable of accepting a “Universal” child restraint for this age group.
3. This child restraint has been classified as “Universal” under more stringent conditions than those which applied to earlier designs which do not carry this notice.
4. If in doubt, consult either the child restraint manufacturer or the retailer.

Notice regarding Semi-universal category (Group II III)

This child restraint is classified for "(Restricted/Semi-universal)" use and is suitable for fixing into the seat positions of the following cars:

CAR	FRONT	REAR
Refer to vehicle list	Outer	Centre
	Yes	Yes NO

Seat positions in other cars may also be suitable to accept this child restraint. If in doubt, consult either the child restraint manufacturer or the retailer.

Only suitable if the approved vehicles are fitted with 3 point with retractor safety-belts, approved to UN/ECE Regulation No. 16 or other equivalent standards.

Notice regarding Universal ISOFIX child restraint system (in Group 0+,I)

1. This is an ISOFIX CHILD RESTRAINT SYSTEM. It is approved to Regulation No. 44, 04 series of amendments for general use in vehicles fitted with ISOFIX anchorages systems.
2. It will fit vehicles with positions approved as ISOFIX positions (as detailed in the vehicle handbook), depending on the category of the child seat and of the fixture.
3. The mass group and the ISOFIX size class for which this device is intended is: Group 0+, D Group I, B1

1. Vital information-READ NOW

For your child's safety, please read these instructions carefully before use and keep them for future reference. Failure to follow the instructions contained in this manual could result in serious injury to your child.

1. This child safety seat can only be used with the harness for children 0 to 36kg in weight (group 0+, I: 0 - 18kg ; group I: 9-18 kg ; group II, III: 15-36 kg).
2. This instruction manual can be retained in the special space of the child seat for its life period.
3. Do not use this child safety seat at the home. It has not been designed for home use and should only be used in your car.
4. Never leave your child unattended in the child restraint system even for a short time.
5. The child safety seat should be changed when it has been subject to violent stresses in an accident.
6. This child restraint should be securely belted in the vehicle even when not in use. In a crash or sudden stop, an unsecured child safety seat may injure other occupants.
7. Always make sure that any straps holding the seat restraint to the vehicle shall be tight, any straps restraining the child should be adjusted to the child's body, and check that the straps shall not be twisted.

8. **IMPORTANT!** Ensuring that any lap straps is worn low down, so that the pelvis is firmly engaged.

9. Do not use any load bearing contact points other than those described in the instructions and marked in the child restraint, when in doubt, please contact the child restraint manufacturer.

10. Any luggage or other objects liable to cause injuries in the event of a collision shall be properly secured.

11. The rigid items and plastic parts of a child restraint must be so located and installed that they are not liable, during everyday use of the vehicle to become trapped by a moveable seat or in a door of the vehicle.

12. To prevent from the risk of fall, your child should always be fastened.

13. It is dangerous to make any alteration or additions to the device without the approval of the competent authority, and a danger of not following closely the installation instructions provided by the child restraint manufacturer.

14. This child safety seat is designed for children from 9 to 36 kg. Never overload the child safety seat more than one child or with other loads.

15. The child restraint must not be used without the cover.

16. The seat cover should not be replaced with any other than the one recommended by the manufacturer, because the cover constitutes an integral part of the restraint performance.

17. Before you adjust any movable or adjustable parts of your child safety seat, you must remove your baby from the child safety seat.

18. The child safety seat should be kept away from sunlight if the seat is not provided with a textile, otherwise it may be too hot for the child's skin.

19. Never use a second-hand product, as you can never be certain what has happened to it.

20. **Notice:** Do not use in any configuration not shown in the instructions.

21. **Importance! Before using ISOFIX child restraint system, please read carefully the manual of automobile manufacturer about the instruction of ISOFIX fix point.**

2. Safety instruction

Only suitable if the approved vehicles are fitted with 3 point safety-belts, approved to UN/ECE Regulation No.16 or other equivalent standards.

4. Parts and interior equipment

5. Scope of application for children

<p>GROUP 0+,I (Rearward facing mode)</p> <p>It is suitable for the weight 0-18 kg, given to children about 0-4 years old.</p>	 <p>Top tether</p> <p>Installation : isofix+top tether Securing the child: 5-point harness</p>
<p>GROUP I (Forward facing mode)</p> <p>It is suitable for the weight 9-18 kg, given to children about 9 months~4years old.</p>	 <p>Top tether</p> <p>Installation : isofix+top tether Securing the child: 5-point harness</p>
<p>GROUP II,III (Forward facing mode)</p> <p>It is suitable for the weight 15-36 kgs, given to children about 4-12 years old.</p>	 <p>Installation 1 : isofix+3-point safety belt Securing the child: 3-point safety belt</p>  <p>Installation 2 : 3-point safety belt Securing the child: 3-point safety belt</p>

6. Height adjustment for head support and shoulder harnesses

Please adjust the head support and check if the shoulder harnesses are at the correct height for your child.

Notice:When used rear facing and forward facing,the shoulder harness height must be even with or just above the child's shoulders

NO-Too low

NO-Too high

YES-Correct

Step 1: Press the adjuster button under the cover and at the same time pull both shoulder straps forward.

Step 2: Pull the height adjuster to adjust the height of the harness and the headrest according to the child's height.

Notice!The height for the harness is adjusted by lifting the headrest.

Notice:When using child restrain system, check the shoulder height of the child time by time and adjust the height of headrest. When the height of harness exceeds the point, it has to take the 5-point harness away (Refer to figures D3 to D8 on pages 22 to 23 of the manual) and use car seat belt to install (Refer to figures D12 to D16 on pages 25 to 26 of the manual)

7. Using the buckle

Locking Method :

Align the left and right buckle tongues to one tongue and insert into the buckle until you hear a "Click" .

Unlocking Method :

You can press the red button of the buckle downwards, the two metal sections will be pop up.

8. Unlock ISOFIX

To remove from the vehicle press the ISOFIX adjuster button (fig.1) and pull the base back from the seat (fig.2)

Transit to prevent damage during. Press the ISOFIX adjuster button and fold the connector completely (fig.3)

9. Adjust the harness

-Loosening the shoulder harness

Press the adjuster button under the cover and at the same time pull both shoulder straps forward.

-Tightening the shoulder harness

Pull the adjuster strap until the harness is fully tightened.

10. Adjust the backrest angle

The forward and rearward installation of the safety seat has three adjustable angles. Please select the appropriate tilt angle according to the following different installation groups.

Rearward installation (group 0+, I): 4th gear

Forward installation (group I): 1st-3rd gear

Forward installation (Group II, III): 1st gear

NOTICE: When the safety seat is installed in rearward direction, the tilt angle can be adjusted in three gears, but only the 4th gear can be used.

How to use: lift up the angle adjusting handle under the front of the seat, then pull it forward or push it backward. When the desired gear is reached, release the angle adjusting handle, and finally push the seat until the "click" sound is heard.

11. Instructions for seat rotation

Step 1: Pull the swivel button, make the seat unlocked

Step 2: Single hand rotate the baby car seat

NOTICE :

Please pull the swivel button again, when the seat can not be swidled into place .

Step 3: When heard "CLICK", the base is locked.

NOTICE :

Please make sure the seat is locked and can not rotate before driving

WARNING

- During driving, seat is not allowed to rotate to the side facing position. Side facing position will not protect the child in case a collision.
- Backrest can only be locked with base when turn to forward facing and rearward facing and it can not be locked when turn to the side.

12. How to use the isofix guide

In order to lock the isofix connector to the steel point successfully, it can use isofix guide.

Step 1: Find out ISOFIX connection in the car.

Step 2: Insert ISOFIX guides to assist with installation

Step 3: Make sure that both ISOFIX connectors are securely attached to their ISOFIX anchor points.
